Description

Experience a whole new shopping experience with OnStore.

We will make your shopping experience a memorable one without those long unending queues and without having to worry about whether you have forgotten something and so on.

Feature Set of OnStore Application

TO BUY LIST

A feature that would come in handy if you have left out anything from your list to shop.

SHOPPING CART & CHECKOUT

All new shopping cart design and experience that is smart, stylish and safe.

FEEDBACK ENGINE

Your valuable suggestions are tracked by the retailer using the feedback engine.

FLAT UI

A flat user interface that would make navigation through the application easier and fun.

SMART BILLING

A smart and self-usable billing system that uses product identification technology to make billing hassle free.

FAVOURITES ASSISTANT

A favorites assistant that would use a preference recognizer engine to maintain a favorites list.

Way of Implementation

This is an android based app. A very simple but unique one, helpful in getting best offers and deals and making your shopping an easy one. The app is built in Android Studio.
